

## Titanium Mill Products, Ingot, and Castings

## **THIRD QUARTER 1987**

ITA991(87)-3 Issued December 1987

U.S. Department of Commerce **BUREAU OF THE CENSUS** 

The statistics in this publication are based on a survey of manufacturers and represent total U.S. shipments of titanium mill products, ingot, and castings. Estimates are included for companies whose reports were not received in time for tabulation. A description of the survey methodology and related information appears in the first quarter report for this series ITA991(87)-1, issued June 1987.

Apparent consumption is derived by subtracting exports from the total of net shipments plus imports.

Comparability of output, export, and import classifications for ingot and billet assume that bloom, sheet bar, and slab are reported as ingot or billet in the output numbers. Figures for imports of ingot and billet also include powder, crystal, and similiar forms which are excluded from the output numbers. are excluded from the output and export numbers.
